Beechwood School congratulates our Year 11 students on their success in their G.C.S.E. exams this summer.

We are really pleased to share that very many of our young people met and exceeded their targets with some really strong individual results.

Overall, 47% of our Year 11 young men and women gained higher level passes in 5 or more subjects and 95% gained passes in 5 or more subjects. We are particularly pleased that:

- in English 72% of students gained higher level passes
- in Biology 83% of students gained higher level passes
- in Chemistry 78% of students gained higher level passes
- in Physics 78% of students gained higher level passes
- in Philosophy and Ethics 100% of students gained higher level passes
- in Media 74% of students gained higher level passes
- in Food Technology 100% of students gained higher level passes

Our Year 11 students worked very hard and showed huge levels of commitment which enabled them to secure such positive outcomes. We are so proud of our young people and all that they have achieved. We also extend our thanks to members of staff who worked tirelessly alongside students to ensure excellent outcomes. Finally, we thank parents and families for their significant support. Together, as a team, a great deal has been achieved and our Beechwood young people are now well positioned to progress post G.C.S.E. and go on to higher and further study. This was also true of our Sixth Formers last week who secured really strong results and therefore we are delighted to report another summer of success here at Beechwood.
