

THE BEECHWOOD LEARNING CHARTER

Our goal is “**to be the best that we can be**”. Our Learning Charter gives us clear guidance on what we need to do to achieve this goal.

Students and staff have identified that lessons need to be:

- interactive
- dialogic
- reciprocal
- engaging
- enjoyable

What this means for students is the following.

Interactive – students must be prepared to take part.

Dialogic – students must be prepared to participate in discussion in the appropriate way.

Reciprocal – students must support one-another. There must be give and take.

When students participate in their learning in this way then it is of great benefit to them and others and lessons will undoubtedly be

- **engaging**
- **enjoyable**

When young people enjoy their learning, they make progress.

When young people learn and make progress they achieve.

When young people achieve they have a good feeling.

When there is that ‘good feeling’, then there is happiness and fulfilment.

Happiness and fulfilment in the light of learning, progress and achievement is what we want for all of our Beechwood young people.
